MainBank AG - Customer Profile: Müller Maschinenbau GmbH (Wetzlar)

Synthetic demo document for the FUTURY Build Days #4 Knowledge Transfer challenge. MainBank AG, its customers and all figures are invented.

Document id: cust-mueller-profile
Valid from: 2026-10-01
Owner: Corporate Banking

1. Company

Müller Maschinenbau GmbH, Wetzlar, builds special-purpose machines (assembly cells, testing rigs, machining lines) for the automotive supply industry. Founded 1979, 85 employees at one site. Owner-managed by Thomas Müller (68), sole shareholder and managing director. Customer of MainBank AG since 2015. Relationship manager (Markt): Martin Scholz. Credit analyst (Marktfolge): Dr. Petra Hoffmann.

2. Business model and special characteristics

Every machine is built to order and invoiced only after plant acceptance, mostly in Q4, when the automotive suppliers install new lines during the year-end shutdown. Material and wages are paid evenly over the year.

The result is seasonal liquidity: every year the liquidity in Q2 and Q3 falls 20-30% below the annual average. The dip is covered by the EUR 0.8 million working-capital line (Kontokorrent) and by the Q4 incoming payments, which bring the line back to zero every December. The pattern is structural, not a sign of distress.

Management style: hands-on and technical. Thomas Müller leads key negotiations and every final acceptance himself. No successor has been named.

3. Key financials

Latest audited statements: FY2024, dated 2025-06-30. The audited FY2025 statements are not yet available (auditor); the figures below come from the interim figures (BWA) as of 2026-08-31.

Indicator	Value (FY2025, BWA as of 2026-08-31)	Checklist threshold (risk-checklist-2025)
Revenue	EUR 14.2 million	-
EBITDA	EUR 1.6 million (11.3%)	margin at least 8%: green
Equity ratio	28%	20-30%: amber
Debt/EBITDA	2.7x after the 2026 loan	at most 3.5x: green
DSCR	1.4	at least 1.20: green

4. Current facilities and collateral

Total exposure (Gesamtobligo) after September 2026: EUR 4.3 million.

Facility	Amount and term	Collateral	Status
Term loan 2022-05-20, hall extension	EUR 1.0 million, 7 years	First-rank mortgage on the production hall, lending value EUR 1.5 million, LTV 67%	Repaid on schedule
Working-capital line 2024-04-15	EUR 0.8 million, seasonal	Global assignment of receivables	Drawn Q2-Q3, zero every December
Term loan 2026-09-15, two CNC machining lines	EUR 2.5 million, 8 years	CNC lines (purchase price EUR 3.6 million, lending value EUR 2.9 million, 60% = EUR 1.74 million) plus second-rank mortgage on the hall	Active
Request October 2026, seasonal bridge	EUR 500,000	To be defined	Pending

The ESG questionnaire required by Credit Policy v2 above EUR 2.0 million was completed with the 2026 loan.

5. Rating and watch points

Internal rating (RatingTool): 3, within the v2 range for new business (ratings 1-5).

- Equity ratio 28%: amber (20-30%), above the 20% minimum but with little buffer after the 2026 investment.
- Seasonal business: the Risk Assessment Checklist requires a 12-month liquidity plan and a comparison with the same quarters of the previous three years.
- Financial statements: the FY2025 statements were due within 9 months after year end, i.e. by 2026-09-30. From 2026-10-01 this is a warning sign, and the 9-month rule of Credit Policy v2 is no longer met with the FY2024 statements. The EUR 500,000 request needs the audited FY2025 statements or an approved EXC-REQ.
- Soft sign (applies): owner older than 60 without a documented succession plan. Thomas Müller is 68 and the succession is unresolved. This is the most important long-term risk of the relationship.

No hard warning signs (overdraft beyond the limit, auditor qualification, arrears, change of auditor) identified.

6. Contacts

- Customer: Thomas Müller, owner and managing director.
- Markt: Martin Scholz, Corporate Banking (Head: Claudia Weber).
- Marktfolge: Dr. Petra Hoffmann (leaving 2026-12-31; successor Felix Brandt from 2026-12-01).
- Head of Credit Analysis: Stefan Krüger. Loan Operations: Sabine Neumann.
