1. Company

Schmidt Logistik GmbH, Hanau, is a road transport and contract logistics company with 120 employees and 95 trucks. Managed and owned by Anja Schmidt (finance, administration, customer contracts) and Peter Schmidt (fleet, dispatch, drivers). Customer of MainBank AG since 2019. Relationship manager (Markt): Martin Scholz, Corporate Banking. Credit analyst (Marktfolge): Dr. Petra Hoffmann, Credit Analysis.

2. Business model and special characteristics

Two business lines: regional transport, and contract logistics (warehousing, picking, delivery) under multi-year contracts. Margins are thin and depend on fleet utilisation, diesel prices and driver availability.

The special characteristic is customer concentration (Klumpenrisiko). The top three customers account for 71% of revenue:

Customer	Share of revenue	Contract	Term
Hessenfood AG	38%	Contract logistics, annual indexation	Until 2028-12-31
Rhein-Main Baustoffe GmbH	20%	Transport	2-year contract
Taunus Pharma Logistics	13%	Temperature-controlled transport	2-year contract

The Hessenfood contract is the anchor; its term and indexation are the main mitigant. The two smaller contracts carry renewal risk every two years. The shares were unchanged at the annual review of 2026-06-20.

3. Key financials

Indicator	FY2024 (statements dated 2025-04-30)	FY2025 (statements dated 2026-05-15)	Checklist threshold (risk-checklist-2025)
Revenue	EUR 22.0 million	EUR 23.5 million	-
EBITDA	EUR 2.4 million (10.9%)	-	margin at least 8%
Equity ratio	19% (red)	21.5% (amber)	green from 30%, amber 20-30%, red below 20%
Debt/EBITDA	3.1x	-	at most 3.5x
DSCR	1.25	-	at least 1.20

Under the covenant from EXC-REQ-2025-014 the equity ratio must be at least 20% from FY2025 on; with 21.5% the covenant is met.

4. Current facilities and collateral

Total exposure (Gesamtobligo): EUR 1.8 million.

Facility	Amount and term	Collateral	Status
Working-capital line 2021-09-01	EUR 0.6 million	Assignment of receivables, extended to the Hessenfood contract in 2025	In place
Term loan 2025-06-30, 15 new trucks	EUR 1.2 million, 5 years	Security transfer of the trucks, lending value EUR 1.5 million, LTV 80% of lending value	Active, instalments on schedule

The term loan was granted with policy exception EXC-REQ-2025-014 (equity ratio 19% below the 20% minimum; LTV 80% above the policy maximum), approved by Dr. Katrin Lorenz on 2025-06-24 and explicitly not a precedent. Its conditions remain in force: (1) equity ratio covenant of at least 20% from FY2025 on, (2) quarterly interim figures (BWA) within 30 days after quarter end, (3) assignment of receivables extended to the Hessenfood contract, (4) margin add-on of 0.5 percentage points.

5. Rating and watch points

Internal rating (RatingTool): 5, confirmed at the annual review of 2026-06-20. Rating 5 is the last rating for which Credit Policy v2 allows new business (ratings 1-5); a deterioration to 6 would mean escalation to Risk Management and 6-monthly reviews.

- Customer concentration: red. Largest customer 38% (checklist maximum 25%), top three 71% (maximum 60%). Every new decision under v2 requires a risk note and a sensitivity analysis for the loss of the largest customer.
- Equity ratio 21.5%: amber. The covenant of at least 20% applies; a breach must be escalated to Risk Management within 1 business day.
- EBITDA margin 10.9%, debt/EBITDA 3.1x and DSCR 1.25 (FY2024) are green.

Soft signs: none applies; no succession issue has been raised.
