MainBank AG - Customer Profile: GreenPower Solutions GmbH (Darmstadt)

Synthetic demo document for the FUTURY Build Days #4 Knowledge Transfer challenge. MainBank AG, its customers and all figures are invented.

Document id: cust-greenpower-profile
Valid from: 2026-09-30
Owner: Corporate Banking

1. Company

GreenPower Solutions GmbH, Darmstadt, develops, builds and operates ground-mounted solar parks in southern Hesse. Founded 2018, 32 employees. Managing director and founder: Dr. Lea Winter. Customer of MainBank AG since 2023. Relationship manager (Markt): Daniel Fischer, Corporate Banking. Credit analyst (Marktfolge): Dr. Petra Hoffmann, Credit Analysis.

2. Business model and special characteristics

Each park is built in a separate project company, which holds the land leases, the grid connection and the power purchase agreement (PPA) and is financed by equity from GreenPower and a project loan.

The special characteristic is long-term project financing with delayed cash flows: during construction there is no revenue, and debt service can only start after commissioning. Current project: solar park "Odenwald-Süd" (8 MWp).

Item	Odenwald-Süd (8 MWp)
Construction period	14 months
Commissioning planned	2027-06
First feed-in revenue	2027-Q3
Offtake	12-year PPA with Stadtwerke Darmstadt
Construction contract	Fixed-price EPC contract with completion guarantee
Total cost and equity	EUR 5.33 million, equity contribution 25% (EUR 1.33 million)

Loan tranches are disbursed against construction progress certified by the EPC contractor. A second park, "Solarpark Wetterau" (6 MWp), has been requested.

3. Key financials

Indicator	FY2025 (statements dated 2026-04-20)	Checklist threshold (risk-checklist-2025)
Revenue	EUR 9.5 million	-
EBITDA	EUR 1.9 million	margin at least 8%: green
Equity ratio	31%	green at or above 30%

Project-level indicators for Odenwald-Süd: DSCR average 1.35 and minimum 1.22 in any year after commissioning, against the v2 project-finance floor of 1.20 average and 1.05 minimum.

4. Current facilities and collateral

Total exposure (Gesamtobligo): EUR 4.0 million; EUR 7.5 million if the second park is approved.

Facility	Amount and term	Collateral	Status
Project loan "Solarpark Odenwald-Süd" 2026-03-24	EUR 4.0 million, 15 years, 24-month grace period (interest only during construction)	Assignment of the PPA revenues, pledge of the project company shares, security transfer of the plant	Under construction; tranches against EPC progress certificates
Request September 2026, "Solarpark Wetterau" (6 MWp)	EUR 3.5 million	To be structured like Odenwald-Süd	Pending, Credit Committee

The 24-month grace period exceeds the 12 months that Credit Policy v2 allows without sign-off; Risk Management signed it off on 2026-03-20. The ESG questionnaire (exposure above EUR 2.0 million) was completed. The Wetterau request takes the total exposure to EUR 7.5 million, above the EUR 5.0 million committee threshold; project finance above EUR 3.0 million goes to the Credit Committee in any case. Submission of the KV-02 is planned for 2026-10-07 for the committee meeting of 2026-10-20.

5. Rating and watch points

Internal rating (RatingTool): 4, within the v2 range for new business (ratings 1-5).

- Equity ratio 31%: green. A second equity contribution for Wetterau reduces the buffer and must be shown in the memo.
- Delayed cash flows: no debt service capacity from the project before 2027-Q3. Construction delay is the main risk; the completion guarantee is the mitigant. The committee is expected to ask for sensitivities (electricity price -20%, construction delay +6 months).
- Two project loans with the same technology, region and offtake structure: EUR 7.5 million must be assessed as one risk.

Soft signs: none identified.

6. Contacts

- Customer: Dr. Lea Winter, managing director.
- Markt: Daniel Fischer, Corporate Banking (Head: Claudia Weber).
- Marktfolge: Dr. Petra Hoffmann (leaving 2026-12-31; successor Felix Brandt from 2026-12-01).
- Head of Credit Analysis: Stefan Krüger. Head of Risk Management: Dr. Katrin Lorenz (grace period sign-off 2026-03-20).
- Credit Committee: chaired by Jochen Richter, Member of the Management Board. Loan Operations: Sabine Neumann.
